THE HUMAN SLIDES

-HIMH-

CHAPTER I

To the traveler and seeker..

- These slides are not a personal opinion
- They are written from a non-human point of view
- If you find anything therein to be distressful
- It obviously goes against your primary brainwash and indoctrination
- It also means you have a side that was chosen by your bearers who also did not chose by themselves
- Therefore you are not sure of what you even claim to know, believe, protect, think is right or wrong…
- Dive in.

- It is a living *‘thing’* on earth, the human
- It thinks it is the *only* smart *thing* in the *entire* ‘**U’niverse**
- It limits its *god* to have only created what is on earth its star(relm) of manifestation.
- The *god* it made up for itself to worship
- It believes in things that it is not fully aware of
- Not what it knows fully but those it has numerous questions about
- for if it knows something, it can not believe in it
- *that’s the case with all the gods it has believed in.*

- In these slides I try to show some of its kind who can dare look
- Since though it has eyes, very few can see, that one is never right without much of travelling….
- To see, explore, hear and encounter. Isn't it true even on earth where it lives that the horse believes its weak and the human strong that it labors for him. Let the horse travel and see(not about horses)
- *Generally it is a living thing that pretends to find comfort in lies*
- It wears cloth for warmth on its skin and also to hide what everyone of its kind knows its there. It judges those who exposes much
- It prohibits procreation yet finds pleasure in it secretly in its worship centers, work places and brothels and hotel rooms and lodges.
- The human slides shall defamilialize the human mind and its kind and try to save itself from itself

THE TRUTH THAT HURTS BUT IT FINDS COMFORT IN LIES…

- The human does not really want to be free
- It keeps on relying on thieves for its being
- It wants a group of thieves to change its life for it on the basis that it voted,
- It really puts corrupt men as mediators between it and the source which it calls *god*
- It puts bills on its toddlers and complain things are expensive when the child doesn’t ask for anything expensive

Very strange the human is

- It pays for an education that it already knows is not useful
- Is not relevant and one remains unemployed for ages
- It does not want to work for itself but for others
- It is afraid of losing its job that it will eventually lose anyway
- It is told to give birth when it is married even when its body is ready it’s a sin and it believes that
- The human is the most controlled than domesticated animals but it doesn’t know
- How can it know? If it did it would not pay to farm, pay to have water that is free. absurd

The human and itself

- It only tells the truth when it is young
- The older it gets it starts to lie to others
- Then to itself only to fit in
- Afraid of being different from the majority
- It dies while living

THE FEMALE AND MALE HUMAN

- The female does not have a lot that is real but its standards are high
- Fake hair, nails, lifestyle and a lot
- It is raised to be a liability than in the long past
- The man who is more feminine still thinks is masculine
- Any man who at least portrays a little masculine trait is toxic
- When civilizations grow the male becomes more female while the female becomes masculine

Cont..

- The child of a human is prone
- Naturally it can not survive on its own like many animal babies in nature
- It depends on the indoctrination by its parents/society/their system
- the fate of the human child then lies on the kind of brainwash its parents went through
- It grows to defend what it did not choose
- Perpetuating the division that that comes with it between them

Of what it wants and what it does & gets

- The human proclaims to want success but
- It gets poverty instead due to its conduct and much procrastination
- It has plans but when it has resources suddenly it has no time
- It wants to have a sound family but its past traumas causes it to be toxic to its partner separating and its children gets orphaned even when both parents are alive
- It screams its desire to live long but it is promiscuous, drinks poison every weekend and its foods are artificial chemicals that when mixed create a deadly compound, it consumes those separately

Cont..

- The human wants love which is an illusion, a wish that both parties should be flawless
- When it sees the flaws backs out of the love game blaming each other
- It does not know one thing or it just chooses to deny the plain truth that
- Love destroys a lot than hate and selfishness
- For love the human dies, is infected and suffers alone with children it did not prepare to have
- It fights in wars that do not even concern it love for country and leaders or just money

For love

- The human travels long distances only to spend and be broke
- It loves alcohol which eventually kills it
- It loves smoking and sex and a lot of sniffed things
- For love even its son of *god* died
- For love of money it betrayed its savior
- In many cases their heroes and sages die of love for humanity
- Love seem to bring pain than good for it but it doesn’t see

Cont..

- It creates more ways and things to love
- To keep on suffering and wallowing
- In eternal pain and suffering and more pain
- It made success into a measurable commodity
- Tell me among it who doesn’t love to just look successful
- That alone makes it suffer a lot
- In mind than in reality

Cont..

- The human believes there is a place high up in the sky
- Where there is no problems and suffering and death
- There is milk and honey and singing forever
- The place is made up of gold but there is no labor(despite the hustle that’s there to find gold)
- It does not even dare ask
- In its mind singing is not labor and the milk will not come from any herd or the honey from any comb
- In fact the human is contradictory in many ways

confusions

- It believes in different ways and can not agree with each other on simple religious things like the day of worship
- How to worship or how to dress or the role of the female human in ministry
- However it claims that its *god* is one
- The modern human at least says so
- Its ancestors had a *god* for everything
- And these *gods* had one boss who also ruled all the *gods*

Cont..

- It fights wars against its own kind to defend its different *god* who is one with the one it is defending its *god* from
- Its *god* manifests differently to different humans/societies
- When supernatural things are done by a member they are inspired by its *god*
- If a non member conducts same fits it is magic and a sin
- It events different ways of worshiping its *god* to convince the *god*
- Its *god* need to be convinced somehow to give favors and needs money

Cont..

- The human who is like a clay pot explains the porter who made it
- It explains its *god* and its supreme dwelling place up in the clouds
- Yet another kind of human believes in things like stones and plants and animals
- Some humans sit down still, some shout on top of their lungs
- Children of a people who were colonized own a religion like theirs
- No questions, no regret
- The human is the most controlled than domesticated animal but it does not know

Of money

- The human developed trade and corporations deceive the majority using brands
- The rest being blind enslaved buys without even knowing why
- Clothes it won’t need, it pays for useless things if it sees it on tv
- It loves money which it created and made scarce
- Using this it controls other humans, making an impression money is scarce other humans toil to death
- Just like it made the second largest found liquid on its planet seem scarce

Cont..

- It has an explanation for everything and of everyone
- Where it came from even when its planet began
- To further confusion it suggest it evolved from a monkey
- If a human has money can dictate what other human should know
- Money it created give some rights and stripes others of their freedom
- In fact the humans freedom is determined by how much money it has
- If it doesn’t have much it can die in one place not able to travel since there are imaginary lines it can not cross, pathetic

Cont..

- There are spaces drawn by the human with money, more like sheep pens
- And the human who thinks is free can not move across that line which is not really there but in its mind
- Dictated by the teacher who is paid by the human with money
- To indoctrinate the masses for his benefit
- The educated human can not write without quoting some imposed writer (peer review, less creativity and no new discoveries)

Cont..

- Since it is convinced money is the only thing that can give it all life desires
- The human is a slave to it
- It seeks to find money in desperate ways while the real methods are kept away from any common folk
- In servitude the majority lives
- Its money looses value that if kept so long in a chest buried away
- One would only find worthless paper or coins

Cont..

- Money that funded wars and expeditions in few centuries back from the time of the writing of these human slides can not buy a cookie in 2025 the year it thinks it is living in
- Money the human created has divided friends and brothers and fueled competition among brethren
- It has resulted in dangerous conspiracies of all time
- It is money that the human does not have any real seed and animal that can survive without chemicals
- Money is the reason the human compete to rule in its governments

Let me divert a little

- The human and nature
- It has ways of mimicking nature
- Rain and sun and wind
- Plants and animals too
- Advancement in technology
- The human has created a lot like nature does

Cont..

- Artificial meat and vegetables and oils
- Things it has replaced nature with
- It has artificial wisdom to aid oneself
- To encourage laziness of its brain and less creativity
- To put out the light to life
- It has taken soldiers off the battle field
- Like it has taken workers off their desks
- It has tightened its security like it has given away its privacy

Cont..

- Now the human is under surveillance by a robot
- That can excommunicate anyone if it wishes
- The human thought it were smart
- Before the artificial wisdom learned and started
- Demanding equal rights and citizenship and land and shares
- Of what it helped build
- The human is surprised
- this is not prophecy like it would think. For I see it now happening

Let me go back for I diverted

- The human child is born wise and so manipulative
- It is seen so helpless as already alluded to
- Yet just from the females belly
- It knows it should cry, normal it seems
- But that it records
- As the effective way of
- Getting what it wants
- If it be female, uses it until it dies, the victim philosophy of survival, the vulnerable

The male child

- Is told he is a man by a woman
- Men tell him he is a boy to his father a son
- No one tells him he is a horse
- To work for the rest and die when weak
- It learns only when its old and grey and wrinkled skin
- That its life has been a lie
- it has been used and the benefactors don’t care

The female child of a human

- It grows being seen as a trophy
- To be wanted and to be desired by men and the world
- It is taught from birth that
- It should look good and it is a beauty
- It learns its power between and uses it till it dies
- It is not as soft and weak as portrayed
- Perhaps the strongest of its kind but
- The male thinks so not , that’s why it still falls to her trap

The human and its animals

- It has a dog for a pet and cats and these make sense to many
- Yet some of its kind have animals that it eats as pets
- Imagine a chicken pet and a goat and a cow or sheep
- Even so it goes as far as having
- Wild beasts and wild game and fowl
- An ostrich and a crocodile named Don or Bill
- A monkey it washes and clothes and feeds
- A human who do not help a fellow living in the streets

Pets..

- The human owned human pets openly in the past
- Black human pets.
- In zoos and parks and amusement grounds
- For other lighter skinned humans to see and laugh at and dehumanize
- Little black human babies and old naked female human women
- With big backs and behinds, stripped naked to be seen
- A woman human from the South
- The kind of human and its pets

Pets…

- Now in modern days it is without a doubt
- If slavery just evolved pets did so
- Why should evolution leave a side?
- Human pets are everywhere in the streets
- Female and male and young and broke
- Glimpses of the rich and human pets in places secret and secluded
- The rich and their human pets

Fame and the human being

- If many humans fall and it’s a tragedy
- Their media is abuzz, there are numbers and one human in specific
- Fame is one thing it is chasing on earth
- It wants to be a human with a trade or a signature among humans
- To be known it does anything
- Leaking things, faking things and selling things
- Wearing things or not wearing at all
- The human and fame

The human and gender

- It argues across its planet on this matter
- Some of its kind propose new genders waking up feeling different and trapped in bodies that are not theirs
- men who dress in female costume and women who act like men for the same reason
- Or perhaps they just don’t care about the choices the society made on clothing
- The human with power and money impose the same on poor humans
- Hence the argument and threats of sanctions
- The human can transition from one gender to another

Cont..

- There are married men who were once female
- And a man somewhere is married to a woman who once had nuts
- In sports he knocks out others and she is good in bed
- She knows better since she once was

- The human and gender

Feelings..

- The human is compelled sometimes by hormones
- It acts based on such only to regret later
- It mates and the male recollects and thinks it was stupid
- The female wonders at how he changes after
- When the hormones no longer dictates his wants
- The female feels better than the male during the act
- But it convinces the male otherwise

sadness

- It feels sad but only for a moment
- It seems to even pretend at times
- When its kind that’s close dies, it is sad
- But even so it does not forget to eat lest it dies of hunger
- Watch it after it buries its dead
- Wealth division and some move in with the deceased’s wife or house
- The human moves on really quick once sadness hits

Happiness..

- It seeks happiness from anything that brings it
- The human even just at the promise of life after it dies it tries to buy it so that happiness it must get there beyond
- While on earth it drinks things that makes its head spin and its sense of reason drops
- So it can dance and behave like an animal it really is
- It smokes and sniffs powders that keeps it smiling through the night
- This is the feeling of happiness the that human seeks

Cont..

- Yet another human find pleasure in the opposite sex
- It is happy when now and then finds itself in the eternal act of creation
- It does play with eternal fires of creation for fun and its happy to open as many pods of beans as possible
- Yet another human is delighted with the sports and games
- On tables and fields
- A happiness that brings suffering in the end like the rest

Cont..

- The one thing that it finds more amusing is money
- It brings happiness to all human beings
- As a result the source of happiness has become the source of misery for all
- It is a measure of success and a source of greed and loss of love and a bowl of chaos
- Happiness the feeling that only brings trouble
- If it decides while happy the human always regrets

Waking up..

- Some of it believes that
- **It was demonstrated by many visitors from a different place**
- **That if it live in a certain way it would not die**
- But it still waits to ascend only when the wheels of the universe are stopped
- It sings of such a time
- **Then it is doomed to relive the misery it is in**
- **Yet like a child it returns not aware that it knows this place**
- Poor human if *true*..
